Stepping forward together

With one of the fastest growing and youngest populations in Canada, Nunavut is a dynamic, vibrant territory, committed to becoming an even better place for future generations. As a government, we are strengthening our unique model of governance-one that integrates Inuit societal values, promotes use of the Inuit language, achieves a representative public service, engages with circumpolar neighbours and collaborates with partners to achieve the promise of Nunavut. As an employer, we're enhancing local education and training initiatives while continuing to provide exciting career opportunities in a unique environment. Join our adventure as we step forward together North of the 60th parallel.

The Opportunity:

While this specific opportunity is located in Rankin Inlet, applicants are invited to make known their potential interest in the other 3 regional destination communities where these positions are home located namely, Cambridge Bay, Iqaluit and Pond Inlet. While we are actively recruiting for one project manager to join our team for a permanent role in Rankin Inlet, an eligibility list will be created to staff future vacancies in any of the 4 Regional Center communities within the Nunavut Territory.

Reporting to the Regional Project Manager, the Project Manager is accountable for the application of the GN Project Management Policy and CGS Project Management Process to deliver major and technically complex infrastructure projects valued up to \$50 million dollars within schedule and budget, and to meet agreed stakeholders needs. The Project Manager must develop project plans in accordance with project management methodologies such as those found in the Project Management Body of Knowledge (PMBOK) and associated industry standards such as published by the Project Management Institute (PMI).

This position’s responsibilities are territorial in scope and interdepartmental in application through the provision of project management expertise to all GN departments and agencies.

The Project Manager is ultimately accountable for the application of the GN Project Management Policy to the management of GN capital and O&M funded infrastructure projects to ensure that funding is spent in the most cost effective manner, to achieve the program objectives of the business case and to develop value through infrastructure life-cycle analysis.

You:

The ability to speak Inuktitut or Inuinnaqtun is considered an asset.

Our community:

With a commute time measured in minutes and/or the ability to just walk to work, Rankin Inlet is nestled in rolling hills with flat areas and intricate rock formations. It has tundra valleys filled with tiny wildflowers in the summertime and wind-sculpted snowdrifts in the winter. It is a busy, modern community of 2,800 residents and is the center of government for the Kivalliq (Central Arctic) Region of the Territory. It is the largest and most entrepreneurial hamlet of this territorial region as well as the business and transportation hub which also serves as the central Canadian gateway into Nunavut. The community is located on a large, deep inlet for which it is named, on the mainland of the country at the northwestern corner of Hudson Bay.
